

AlfaKutu Quality Policy

Our company goal is to be an exemplary organization in our sector by keeping our production quality, company credibility and customer satisfaction at the forefront. In line with this objective, by fulfilling the requirements and giving effort to continuously improve it, our policy is;

- To continuously improve our production standard in accordance to ISO 9001, ISO 14001, ISO 45001, ISO 27001 and IATF 16949 standards,
- To control our production processes effectively,
- To deliver the products we produce to our customers at competitive prices, on time and without error.

Environment and OHSAS Policy

Our company goal is to manage all our activities in an integrated manner with ISO 14001 Environment and ISO 45001 Occupational Health and Safety Management Systems, and to be an exemplary organization in terms of environmental sensitivity and occupational safety as well. For this purpose, our policy is;

- To consume sources as low as possible, with using the most effective ways of re-use and recycling methods and take into account the environmental impacts associated with our processes by eliminating the pollution at source to fulfill our responsibility towards the environment
- To make all the necessary arrangements to create healthy and safe working environment, provide an eliminated environment that could cause accidents or occupational disease by taking all precautions and reduce the occupational safety risks with the participation of all our employees in our Occupational Safety ecosystem under the leadership of our employee representatives.

Information Security Policy

In line with all the requirement of the standard ISO 27001, Our company goal is to constitute an approach supported by targets of top management to prevent violations to law, regulatory or contractual legal obligations and any security requirements, inform all our employees and interested parties about these targets and ensure the appropriate ground for their implementation and sustainability. In line with this objective, by fulfilling the requirements and giving effort to continuously improve It, our policy is;

- To follow and renew the technology used in information systems
- To identify the risks and eliminate or minimize by taking the necessary measures
- To increase awareness of information security among all our stakeholders and to ensure continuous improvement is supported by all parties.

When we look at the big picture, our goal is to successfully implement our Integrated Management System in line with the policies mentioned above.
